

Ultrasonic Height, Weight, Fat and BMI Analyzer Health Scale with RS232 port to PC

SKU: GMMH03WH
Manufacture warranty period: 12 months

Features:

- Equipped with high precision strain gauge sensor system
- Capacity: 5kg-200kg
- Ultrasonic body fat analyser Height and Weight scale
- Division of weight: 50g
- Height measuring range: 0.80-1.95 meter (division of height: 5mm)
- LCD display size: 70*80mm (blue light)
- Methods of measurement of body fat: four points contact electrode, bioelectrical impedance analysis (BIA)
- **Output Function: RS 232 port connect to computer with software**
- Height measuring function
- 8mm tempered glass platform
- Body fat measuring and analyse function
- Fat / Hydration / Muscle / Body Bone / Calories display / BMI function
- Voice function
- Automatic on-step, continuous weighing
- Auto-zero
- Low battery/over load indication
- Electricity saving function
- Power: 4 x 1.5V AAA batteries or AC220V/50Hz (6V DC 1A power supply)

Specifications:

- Material: ABS Plastic and Aluminum Rod
- Low battery indication / Overload indication
- Weight capacity: 5 to 200kg
- Division: 50g
- Height measurement range: 80 to 195cm
- Resolution: 0.5cm
- Scale size: 49 x 35.5 x 210.cm
- LCD display: 70 x 80mm
- Scales Weight: 11.5kg
- Power: 4*AAA or AC adaptor (included)

Package included:

- BMI H03 Scale X 1
- User Manual X 1
- AC Adapter X 1
- RS232 to USB Cable

Package Dimension:

- Size: 170 x 57 x 23 mm
- Weight: 16 KG

Note: Traders please take not this weighing scale is Not Legal for trade.
